REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

At Anderson Mill Elementary, we are continuing in the tradition of excellence as we embrace our challenges and celebrate our success. We are committed to our mission of developing competent and confident learners by creating a safe, positive, innovative environment where the staff, parents, and community work together to provide a curriculum that recognizes individual differences. It is the intent of the faculty to lead students toward becoming disciplined, productive, informed, and fulfilled individuals who are prepared to meet the challenges that equip them for college or career readiness.

During the 2013-2014 school year, our faculty embraced the challenge of focusing on instructional technology and college or career readiness. Our teachers attended yearlong professional development sessions both at the district and school level to increase their knowledge of effective instructional strategies. The faculty was trained in Thinking Maps and will be moving toward implementation of a “Write from the Beginning” writing curriculum. Technology has enhanced student engagement in the classroom and provided opportunities for critical thinking and project based learning. These programs and strategies helped our teachers increase rigor in the classroom thus, providing more meaningful learning experiences for the children. In addition, we were able to continue with a variety of intervention programs for both reading and math to assist our struggling learners. Research-based direct instruction programs were utilized in grades K-3 to provide RTI (Response to Intervention) classes for students who were performing below grade level in either ELA or math. The implementation of these programs, in conjunction with a rigorous curriculum and an individualized approach to instruction, helped our students see gains in MAP (Measures of Academic Progress) scores, PASS (Palmetto Assessment of State Standards) scores and overall academic performance in the classroom. Because of these accomplishments, we received the SC Department of Education Palmetto Gold Award for academic performance in math and language arts. We also received an “A” under the new state guidelines for academic improvement.

Our children had the opportunity to experience personal gratification as we embraced several community outreach projects such as Bird Seed for Hospice, Spartanburg Humane Society, Jump Rope for Heart and Recycling for Our Earth. The students, faculty, and staff also collected over \$13,500 for Relay for Life, ranking us the top elementary school at the event. What an amazing accomplishment!

In addition to academic accomplishments and service learning, our school embraced activities designed to improve student nutrition, physical fitness, and overall health. Students had the opportunity to participate in clubs such as 100 Mile Club, Youth Nutrition Advisory Council, Running Club and Girls on the Run. These activities generated enthusiasm for maintaining a healthy lifestyle.

We appreciate the support of our district administration, Board of Trustees, families, business partners, PTO, and School Improvement Council as we continue “In the Tradition of Excellence” at Anderson Mill Elementary. We look forward to the opportunity to work collaboratively with you, as we strive toward continuous improvement in our service to children.

Sincerely,
